Today

Kids shouldn't be sidelined from their favorite sports activities because they don't have health insurance. Your state has a free or low-cost health insurance program for kids.

Generally, a family of four with an income up to \$45,000 a year can get their kids covered. They'll get doctor and dentist visits, hearing and vision care, hospital care, mental health services, regular check-ups and shots and needed treatment, including prescription drugs. Even if you've been turned down in the past, your child may be able to get coverage now.

Come learn more about your state's children's health insurance program, see if your kids are eligible and sign up.
