Latino Insurance Coverage

National Landscape

• 1 in 4 Latinos uninsured
• Rates improving but still disproportionately uninsured
• Majority of uninsured live in just three states (CA, TX, FL)
Latino Children’s Coverage

National Landscape

• In 2013, 11.5% of Latino kids were uninsured
• Two-thirds of uninsured Latino kids are eligible for Medicaid and CHIP but not enrolled
• This rate is trending downward even as the overall population of Latino kids grows
Figure 3: Hispanic Children Have the Second Highest Rate of Uninsurance

- Black: 6.1%
- White: 6.9%
- Asian/Native Hawaiian/Pacific Islander: 7.2%
- Other: 9.1%
- American Indian/Alaska Native: 15.9%
- White, non-Hispanic*: 5.4%
- Hispanic*: 11.5%

* For simplicity, racial and ethnic data is displayed on one figure, but data is taken from two separate groups. Hispanic refers to a person’s ethnicity and these individuals may be of any race. See the methodology section for more information.

Minimizing Burden in Application Process

The state may only require an individual to provide the information necessary to make an eligibility determination.

Applications may ask a non-applicant for certain information necessary to determine eligibility for an applicant (i.e., income, tax filing status, relationship).
Application Process Cont.

- Request for SSN of a non-applicant is permitted if:
  - It is voluntary
  - It is used only to determine eligibility for applicant/beneficiary or for purpose directly connected to Medicaid program
  - Clear notice is provided to individual

- States should not ask for citizenship/immigration information from a non-applicant
Public Charge

- Applying for Medicaid or CHIP does not make someone a “public charge”
  - It will not affect someone’s chances of becoming an LPR or U.S. citizen
  - The one exception is for individuals receiving long-term care in an institution at government expense
    - These people may face barriers getting a green card
Accessibility and Federal Funds for Language Services

Information must be accessible to individuals who are limited English proficient and individuals with disabilities

- Entities receiving federal funds have a responsibility to provide these services and not to discriminate based on national origin for individuals who are limited English proficient under Title VI of Civil Rights Act of 1964
- Based on disability under section 504 of the Rehabilitation Act of 1973

Federal funds are available for oral interpretation and written translation to be provided to Medicaid and CHIP applicants and beneficiaries.
