

Connecting Kids to Coverage National Campaign

Dear [STATION CONTACT/PARTNER NAME],

Millions of uninsured children are eligible for [STATE MEDICAID/CHIP PROGRAM]!

Having comprehensive, affordable health coverage can mean the world to families. With health coverage, parents and caregivers can rest easy knowing their children and teens can receive the routine preventive care that keeps them healthy and the medical help they need if they get sick or injured.

Free and low-cost health insurance is available through Medicaid and the Children's Health Insurance Program (CHIP) and enrollment is open year-round; these programs have been instrumental in substantially reducing the percentage of uninsured children – with more than **38.3 million children covered**.

However, there are still a substantial number of children who remain without health coverage vulnerable to infectious disease, ill-prepared for an emergency or lacking access to routine care. **Recent research** indicates that approximately 2.2 million uninsured children across the country are eligible for Medicaid and CHIP programs. Often, parents and caretakers are not aware that their children may be eligible for coverage.

Families of four earning up to \$80,000* a year may qualify. Income levels vary by state and coverage must be renewed each year. Coverage includes:

- regular check-ups,
- mental and behavioral health services,
- doctor and dentist visits,
- hospital care,
- immunizations,
- prescriptions, and more.

Help us **spread the word** about free or low-cost health insurance coverage!

We hope that you will use the enclosed public service announcements (PSAs) and radio live read scripts to inform families in your community about Medicaid and CHIP:
