			registered dental hygienist, in accordance with a collaborative practice agreement, Medicaid will reimburse Article 28 clinics for these assessments. A dental hygienist screening of a patient should be billed using D0190. The clinic should bill for any other procedures provided by the hygienist within their scope of practice (e.g., prophylaxis). These claims will be identified by the D0190 code to indicate that a dental hygienist performed the services provided. Please note that D0190 should only be billed for screening performed by a dental hygienist.

General anesthesia	Yes		General anesthesia / I.V. sedation reports. Note: Reports must include start and stop times for: o Anesthetic provided; and, o Operative treatment provided. Anesthesia time begins when the doctor administering the anesthetic agent initiates the appropriate anesthesia and non-invasive monitoring protocol and remains in continuous attendance of the member. Anesthesia services are considered completed when the member may be safely left under the observation of trained personnel and the doctor may safely leave the room to attend to other patients or duties. Anesthesia time is divided into 15-minute units for deep sedation/general anesthesia and intravenous sedation/analgesia for billing purposes; the number of such units should be entered in the "Times Performed" field of the claim form using the appropriate code (D9223, D9243).
