Give your children a shot to stay healthy this flu season.

THE SEASONAL FLU IS A DANGEROUS VIRUS THAT IMPACTS EVEN THE HEALTHIEST OF CHILDREN.

400,000 people were hospitalized during the 2019-2020 flu season, 52,000+ of which were kids.¹

Approximately 80% of the kids who died from flu weren't vaccinated.²

WE CAN ALL PROTECT THE HEALTH OF OUR CHILDREN.

4 WAYS TO STOP THE SPREAD:

1. Avoid anyone who’s sick.
2. Cover coughs and sneezes.
3. Wash and sanitize hands.³
4. Get the flu vaccine.⁴

EVERY KID SIX MONTHS OR OLDER SHOULD RECEIVE THE FLU VACCINE.⁵

2 COMMON TYPES OF VACCINES FOR KIDS:⁶

shot & nasal spray

It takes about 2 weeks to provide protection.⁷

Covered by Medicaid and CHIP.

REST EASIER THIS FLU SEASON AND ALL YEAR LONG.

Your kids up to age 19 may qualify for free or low-cost health coverage through Medicaid and the Children's Health Insurance Program (CHIP).

Visit InsureKidsNow.gov or call 1-877-KIDS-NOW (543-7669) to learn about coverage in your state.

Once covered, visit VaccineFinder.org to find the nearest location for your shot.
